## CONSIDERING KAISER'S CASE

DELEGATION OF SOLDIERS AND WORKMEN ARRIVES AT THE HAGUE.

(By the Associated Press)  
COPENHAGEN, Dec. 5.—A delegation from the Berlin Soldiers' and Workmen's council has arrived at The Hague, a Berlin dispatch reports. The message indicates that the delegation's presence at the Netherlands capital has to do with negotiations concerning former Emperor William now in progress at the German legation, the nature of which is not stated.

## WILL NOT TAKE HELGOLAND

CHURCHILL SAYS BRITAIN DOES NOT NEED ISLAND, WILL MAINTAIN NAVAL POWER.

(By the Associated Press)  
LONDON, Dec. 5.—British naval authorities have decided it will be unnecessary to demand the return of Helgoland to Great Britain from Germany, Winston Spencer Churchill, minister of munitions, announced in a speech at Dundee last night. Churchill also said the government had decided upon the nationalization of railways. "We do not intend, regardless of what appeals are made, to lend ourselves in any way to any fettering which will prevent the British navy from maintaining its well tried and well deserved supremacy," said the munitions minister, in course of his address.

## MORE THAN 300,000 DIE OF INFLUENZA

WASHINGTON, Dec. 5.—Between 300,000 and 350,000 deaths from influenza and pneumonia have occurred among the civilian population of the United States since Sept. 15, according to estimates today of the Public Health service. These calculations were based on reports from cities and states keeping accurate records, and public health officials believe they are conservative.

The epidemic still persists, but deaths are much less numerous, according to reports reaching here. A recrudescence of the disease now is occurring in many communities throughout the country, but this is believed to be sporadic and not to indicate a general renewal of severe epidemic conditions.

Insurance companies have been hard hit by the epidemic, government reports indicate although there are no figures available here to show total losses sustained by the companies.

The government incurred liabilities of more than \$170,000,000 in connection with life insurance carried by soldiers in army camps, not including those in Europe. About 20,000 deaths occurred in the camps in the United States, War Department records show.

## OKLAHOMA BOYS IN HEAT OF BATTLE

OKLAHOMA CITY, Dec. 5.—(Special)—That the fighting men from Oklahoma fully justified all expectations was the positive statement made by their Commander, Brigadier General J. P. O'Neill in a letter to Governor R. L. Williams. General O'Neill, writing from headquarters of the 179th Brigade A. E. F., France under date of October 29, says:

"My Dear Governor:  
"I have just a moment to tell you that the men from your state, the 179th Brigade, have gone into the real thing and have not been found wanting. In the last operation they ran into the 28th German division. This division is known as the 'Kaiser's Favorite' and it is supposed to equal, if not superior to, the best of the Guards. We chased them from their position and we took prisoners from each of the three regiments that form the division. After this I think you can depend on them for anything."

"There is no news that I can tell you, but it would take a great stretch of imagination to say that everything is quiet. Kindest regards to all.  
Sincerely,  
J. P. O'NEILL."

## Shall We Build a Better Ada?

The Answer to this Question will be largely determined Next Week.

On December 9, 10, and 11, the Chamber of Commerce will put on a campaign for increasing its membership and raising \$6,000 for next year's operations. Work cannot be accomplished without expense. If we are to build a better Ada we must pay the price.

The Board of Directors, all conservative business men, will be equally as careful of spending your money as they would their own.

**TWENTY-ONE MORE OKLAHOMA COUNTIES FREE OF CATTLE TICK**  
Oklahoma City, Okla., Sept. 13.—Careful review is now being made by Federal and State inspectors working in cattle tick eradication in Oklahoma for the purpose of recommending to the government for release from quarantine territory covering about twenty-one counties in the southeastern part of the state. This would place the territory above the quarantine line, and incidentally, as cattlemen know, results in substantial increase in value of the live stock. An effort is being made to complete the work of review by the latter part of the present month so that recommendations can be made at a meeting of heads of the bureau of animal industry in Birmingham, Ala., about the latter part of September. Should recommendations be made at that time it is possible that if any territory is released it will be done about Dec. 1.

**MISS LEE'S RECITAL  
AT NORMAL TONIGHT**

Miss Lula L. Lee, piano instructor at East Central normal, appears in recital tonight at the normal auditorium. Miss Lee is well recommended as a pianist and instructor, being a graduate of the Oklahoma College for Women, and has performed most creditably before many of the higher critics of her art. Miss Lee will be assisted by Miss Olive Robertson, reader, and Mr. M. B. Molloy, baritone. Miss Robertson is a daughter of Hon. J. B. A. Robertson, Democratic nominee for governor of Oklahoma, and is regarded as among the foremost of Oklahoma readers. Mr. Molloy, whose many previous efforts have been so highly pleasing to lovers of music of Ada, needs no introduction. That Mr. Molloy will sing this evening is the only statement necessary to attract scores of the musically inclined to the normal. At the close of the recital Miss Keller will hold a reception in honor of the young ladies. The public is most cordially invited to attend this recital.

**DR. BAIRD ADDRESS  
NORMAL STUDENTS**

The first chapel exercises of the normal were held this morning beginning at 11 o'clock. The features of the occasion was a scholarly address by Dr. Phil Baird, pastor of the First Presbyterian church of Oklahoma City. It was along patriotic lines dealing with the greatness of this nation. He ascribed this greatness to four facts, its favorable location, room for growth, resources and spirit of its people.

Rev. G. W. Beck extended greetings on behalf of the chamber of commerce.

President Gordon announced that there is no longer any doubt about the establishment of the Students' Army Training Corps in the normal, the number of eligible students already secured being sufficient to guarantee the unit.

Besides the more than 300 students of the normal, the meeting was attended by many citizens and representatives of various lines of endeavor.

**METZ MAY BE  
ATTACKED SOON**

**AMERICANS MAKING RAPID PROGRESS IN OFFENSIVE AGAINST ST. MIHIEL SALIENT.**

(By the Associated Press)  
St. Mihiel salient, after four years of German occupation, was today under attack on both sides by the first American army, certain French units co-operating in the first major operation under American leadership. The immediate American objective is closing the salient's mouth thus preventing the Germans within from escaping without great loss in men and material. It is believed Pershing's ultimate hope is cutting off the enemy's control of the Briey ore region from which is obtained much raw material for German guns and munitions. At the present rate of American progress occupation of the German fortress at Metz is a possibility. The distance across the salient's mouth is now about ten miles. In the north the British are advancing on coveted Cambrai positions, after crossing the Canal du Nord.

**EUGENE DEBS CONVICTED  
UNDER ESPIONAGE ACT**

Cleveland, Ohio, Sept. 13.—Eugene V. Debs, charged with violating the espionage act, was found guilty by a Federal jury today.

Talking to newspaper men after the verdict, Debs said: "It is all right. I have no complaint to make. It will come out all right in God's good time."

Of the original ten counts of the indictment, but four remained when the jury retired to consider the evidence. The verdict found him guilty of three, not guilty of one. He was found guilty of attempting to incite insubordination, disobedience, etc., in the military and naval forces; attempting to obstruct recruiting and uttering language tending to incite, provoke and encourage resistance to the United States and to promote the cause of the enemy.

The count of which he was adjudged innocent charged that he proposed the cause of the United States. The jury was out five and a half hours. When it was announced that the jury was ready to report, the crush became great. Mrs. Rose Pastor Stokes drew her chair beside Debs and into her hands he slipped his own hand, where it remained while the clerk was reading the verdict.

Debs, in his address to the jury, said he had no word to retract, and rather went out of his way to accept the damaging St. Louis anti-war platform. The maximum penalty is twenty years imprisonment and a fine of \$10,000. John F. Sawken of the Bureau of Investigation, Department of Justice, who gathered the government's evidence, was among the spectators.

In spite of the criticism of President Wilson for leaving the United States to attend the peace conference, it must be admitted that there is a great work to do over there and he is the man to get results. He will be a balance wheel in the conference, something badly needed, and his presence is vitally necessary to the clinching at the peace table that which the allied armies won in the field.

And now Crown Prince Willie says he and his dad were both strongly opposed to war and did all they could to keep out of it but their officers simply drove them into it against their wills and the nation suffered a crushing defeat. Evidently all the higher up of Germany want to prove an alibi and are seeking a goat, a role none cares to assume at this time. Events have proven that the Germans are not the chosen people of the earth and the rest of mankind created to be ruled from Berlin.

The Chamber of Commerce of Ada lost no time in beginning work after the signing of the armistice. It was one of the first to get busy and with this start will be in position to get in on the ground floor for new enterprises. More smokestacks for Ada should be the watchword of every citizen and the best way to bring this about is to become a member of the Chamber of Commerce. Merely talking about the needs of the city will get nowhere. It takes more than that and it takes a strong pull all together to move things.

## GAS RATES RAISED TO ADA CONSUMERS

The corporation commission has granted the application of the Mac-Thwaite Oil and Gas Co. to increase its rates on gas supplied to the citizens and industries of Ada, said increase to date from November 1, 1918. Hereafter domestic consumers will pay 35c per 1,000 feet, instead of 25c as heretofore and all other consumers will pay a higher rate, depending on the amount consumed.

The order was signed November 20 but it was not sent to the company until a day or two ago.

## OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs.

This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is inclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small swallow of water. The

oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

## PEOPLE DEPARTING FROM ECONOMY OF WAR DAYS

(By the Associated Press)

WASHINGTON, Dec. 5.—Reaction from war economy is apparent in reports to various government agencies since the signing of the armistice. War savings committees in all parts of the country have submitted statements tending to show that persons who abstained from buying unnecessary clothes during the war have rushed to shops during the past week or two and bought according to pre-war standards.

Retail business report stimulation of business by peace news. In some cases, the response was immediate, business showing a big jump within day or two after November 11. This reaction seems most marked among the wealthier classes.

Reports gathered by the Federal Reserve Board also show activity among wholesale houses to meet the demand of retailers. The wholesale business, however, is somewhat restricted by the desire of the retail merchants to let their stocks run low while waiting for prices to come down. Thousands of retailers quickly arranged special sales of their stocks at lower prices, in view of the uncertainties of the future course of prices.

Building operations have taken a sudden start after the long enforced period of sluggishness during the war, and building materials are now beginning to flow away from former war enterprises, toward peace time building projects. Private building seems to be holding back, however. Municipalities and states have turned their thoughts to building roads and bridges, held up during the war by shortage of materials, and within the next few months officials here look for a multitude of advertisements for bids for these projects.

At least eight billion of dollars must be raised in the United States next year from war bonds or war savings. Officials argue that floating of these loans without corresponding saving in money and materials merely serves to inflate credit, and the practical result of this inflation is a general rise in prices.

The Treasury now is seeking to develop means of continuing thrift propaganda throughout the next few years, to educate the public to the duty of paying off indebtedness before relaxing war time economy. In fact, students of economy in the Treasury declare that unless the American people learn lessons of thrift which populations of England, France, Germany and other warring nations have learned during the past four years, the country will be in position during reconstruction of absorbing much more than its share of the world's available stock of food, materials and labor, needed for the physical rebuilding of devastated portions of Europe.

Treasury agencies studying banks' conditions in industrial communities, particularly where war materials were manufactured, find that savings and checking accounts maintained by workmen do not have balances proportionate to their advances in wages during the war.

## HOW TO FIGHT SPANISH INFLUENZA

By Dr. L. W. Bowers.

Avoid crowds, coughs and crows, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, a clean skin, and clean bowels are a protecting armour against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Auric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Auric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic, such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Irontic (Iron tonic) tablets, which can be obtained at most drug stores or send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

## ARE PLANNING TO COMBAT INFLUENZA

(By the Associated Press)

CHICAGO, Dec. 5.—Plans for combating another influenza epidemic which is expected to sweep the country in 1919 will be considered by health authorities from all parts of the United States, Canada, and South America at the forty-sixth annual convention of the American Public Health Association which opens here Dec. 9.

Members of the association say that all the influenza epidemics since 1929 have been recurrent from two to three years after the initial outbreak. For this reason leading authorities feel convinced that the visitation of 1918 will be repeated in 1919 and probably in 1920. Also it is pointed out that in previous epidemics the second and third outbreaks have been more virulent and attended by higher mortality rate than were the initial manifestations.

It was early in 1918, according to Dr. W. A. Evans, former health commissioner of Chicago, that the now so-called Spanish influenza made its appearance in Spain. Now Spain is having its second outbreak, according to Dr. Evans more virulent in form and attended by an alarming death rate.

During the three-day meeting, the methods used in combating the 1918 epidemic in the United States will be thoroughly considered and plans outlined for meeting any future emergency. Among those who will present papers and take part in the discussions are Major W. H. Welch, of the National Medical Corps; Dr. E. C. Rosenow, of the Mayo foundation; Dr. Herman Biggs, Commissioner of the New York State Department of Health, and Dr. A. J. McLaughlin, assistant Surgeon General of the United States Public Health Service.

Besides consideration of influenza, many subjects of general interest pertaining to public health during the reconstruction period will be taken up. There will be discussions regarding proper precautions in the care of children to reduce mortality rates, rural sanitation, the effect of fashions on health and the use of narcotics in war times.

## SERVED MORE THAN 30 YEARS WITH MARINES

(By the Associated Press)

ST. LOUIS, Dec. 5.—After having served 30 years, one month and 24 days in the United States Marines, Sergeant-Major John H. Quick, who holds the Congressional Medal of Honor and the Distinguished Service Cross, has retired and returned to his home as a civilian.

Quick's exploits have made him the pride of the marines. The retirement papers are in the formal language of the service, but Major General Charles G. Long addressed a letter to Quick which says:

"Your record shows that from time to time at different stations during your incumbency of the several enlisted grades, you have been entrusted with varied and important duties making demand upon some of the best qualities of the soldier and that these duties have been accomplished to the entire satisfaction of your superior officers."

"Your record shows that you were awarded the Congressional Medal of Honor for extraordinary heroism on June 14, 1898, at Cusco, Cuba, that you were commended by the secretary of the navy on July 31, 1914, for conspicuous courage, coolness and skill while constantly exposed to fire at Vera Cruz, Mexico, and that on June 6, 1918, you were awarded the Distinguished Service Cross for conspicuous gallantry and service in the face of enemy fire in France." In France Quick delivered a truck of ammunition after a sensational dash of four kilometers through a field of bursting shells.

When your digestion is poor, when your bowels are constipated, when your breath is bad, when your stomach is sick or disordered, and you feel languid and low-spirited, Prickly Ash Bitters is the remedy you need. It cleanses the vital organs, purifies the bowels, and imparts a fine feeling of strength, vigor and cheerfulness. Price \$1.25 per bottle.—Gwin & Mays Drug Co., Special Agents.
